

ROCCO jr.

Code
RCJ-B-001

Rocco jr. is the smaller version of our multifunctional outdoor object Rocco, specially designed for smaller (city) gardens, terraces and compact outdoor spaces. Rocco Jr. is also available as a standard fire bowl and can be transformed into an ice bucket or grill using proper accessories. With the exception of the parasol base, this garden furniture can be complemented with a table top and a fire-extinguishing cover with matching handles.

Rocco jr. is made of corten steel and black aluminium. This light but sturdy outdoor object is thus resistant to all weather conditions. The levelling feet are adjustable and do not scratch the surface. Also good to know: air circulation and water drainage are made possible thanks to a number of thoughtful cut-outs at the bottom. Moreover, thanks to the fine design of the side elements, you can arrange logs neatly.

technical data

optional

ROCCO jr. | table top
art.: RCJ-B-004
materials:
powder coated aluminium
