

ROCCO jr.

Code
RCJ-B-001

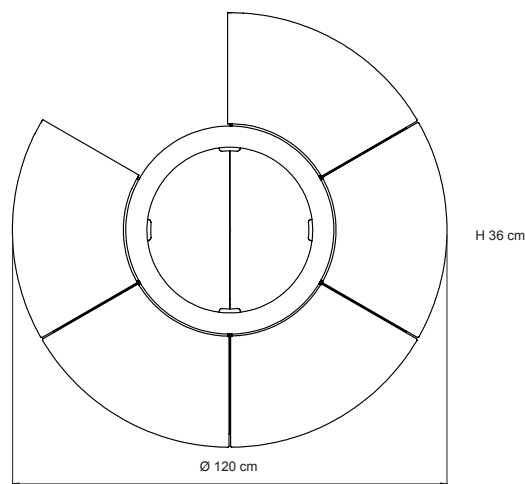

Rocco jr. is the smaller version of our multifunctional outdoor object Rocco, specially designed for smaller (city) gardens, terraces and compact outdoor spaces. With the exception of the parasol base, this garden furniture can be complemented with a table top and a fire-extinguishing cover with matching handles.

Standard with base + fire bowl. Optional accessories are the grill, table top, table top with ice bucket, cover, plancha, cutting board and a bio-ethanol fire place.

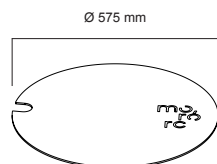

A number of cut-outs at the bottom of the base enable air circulation or water evacuation. The combination of Corten steel and black aluminium makes Rocco jr. totally rust-resistant. The standard colour is black. A RAL colour of your choice is also available on request.

Rocco jr. is delivered in one piece. There is no assembly required on site.
