

ROCCO

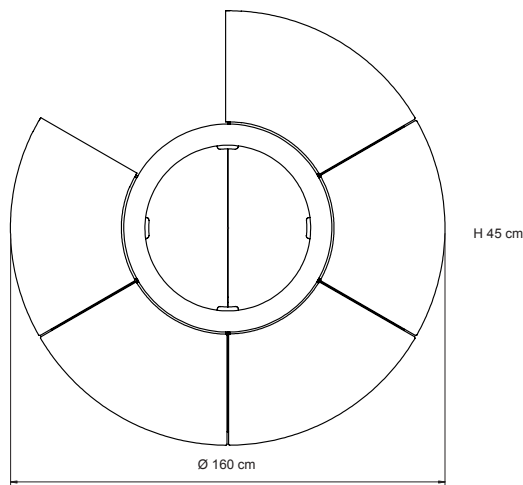

Code
RCC-B-001

Rocco is a multifunctional garden object. Thanks to the recess in the design, the central part remains easily accessible. This central zone enables you to change Rocco's function using the different accessories. A number of cut-outs at the bottom of the base enable air circulation or water evacuation. The combination of Corten steel and black aluminium makes Rocco totally rust-resistant.

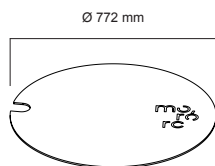

Standard with base + fire bowl. Optional accessories are the grill, table top, table top with ice bucket, cover, plancha, cutting board, parasol base and a bio-ethanol fire place.

The standard colour is black. A RAL colour of your choice is also available on request.

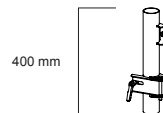

technical data

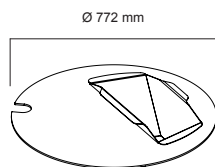

optional

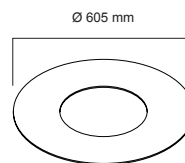

ROCCO | table top
art.: RCC-B-004
materials:
powder coated aluminium

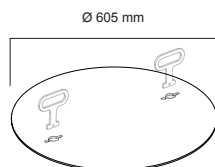

ROCCO | parasol base
suitable for parasol pole Ø38-40
